6th Burghölzli Psychiatry Meeting 2022

Thursday, 10.11.2022, 13.30 – 19.00h
University Hospital of Psychiatry Zurich (PUK), Lecture Hall Z1 03
6th Burghölzli Psychiatry Meeting

Dear colleagues,

We are pleased to welcome you to the 6th Burghölzli Psychiatry Meeting – a symposium on contemporary experimental and clinical psychiatry and neuroscience – held from 13:30-19:00 on the 10th of November 2022, at the lecture hall (Z1 03) of the Psychiatric University Hospital Zurich (PUK), University of Zurich (UZH). The aim of this meeting is to bring together researchers who are looking at mental illness from different angles in order to foster cross-talk and collaboration.

For the participation at the full program 4 SGPP-CME points, 4 WBK points and 4 SGKJPP credit points are accredited.

Sincerely,

The Organization Committee

Prof. Dr. Silvia Brem
Dr. Nathalie Brackmann
Prof. Dr. Reto Huber
Prof. Dr Birgit Kleim
Prof. Dr Julius Popp
Prof. Dr. Chris Pryce
Prof. Dr. Boris B. Quednow
Program

13:30-13:45 Welcome address of Prof. Dr. Susanne Walitza (Department of Child and Adolescent Psychiatry, PUK), Prof. Dr. Erich Seifritz (Department of Psychiatry, Psychotherapy and Psychosomatics, PUK), and Prof. Dr. Christopher Pryce (Department of Psychiatry, Psychotherapy and Psychosomatics, PUK)

13:45-15:00 Young scientist session I
Chair: Prof. Dr. Silvia Brem and Dr. Nathalie Brackmann

Miriam Rabl, MD (Department of Geriatric Psychiatry, PUK)
Blood plasma protein profiles of neuropsychiatric symptoms and related cognitive decline in older people

Michelle Loher, MSc (Jacobs Center for Productive Youth Development)
Tobacco Use, Cannabis Use, Self-Control, and Violence: Disentangling Relations from Early Adolescence to Early Adulthood

Mauro Mey, MSc (Department of Forensic Psychiatry, PUK)
Risk factors and motives of absconding in a forensic facility - a case control study

Dr. Hanne Scheerer (Department of Psychiatry, Psychotherapy and Psychosomatics, PUK)
Oral Prolonged-Release Ketamine in Treatment-Resistant Depression - a Double-Blind Randomized Placebo-Controlled Multicenter Trial of KET01, a Novel Ketamine Formulation

15:00-15:15 Coffee break and poster presentations (Z0 03)

16:20-16:35 Dr. Anke Maatz, (Department of Psychiatry, Psychotherapy and Psychosomatics, PUK)
How to implement participatory research at the ZPF: a trialogical proposal

16:35-17:00 Young scientist session II
Chair: Prof. Dr. Birgit Kleim and Prof. Dr. Julius Popp

Dr. Dorothea Floris (Methods of Plasticity Research, Department of Psychology, UZH)
Linking structural and functional imaging modalities to characterize face processing in autism

Dario Bachmann, MSc (Institute for Regenerative Medicine, UZH)
Lifestyle affects amyloid burden and cognition differently in men and women

Christina Lutz, MSc (Department of Child and Adolescent Psychiatry, PUK)
Altered audiovisual congruency effect in late but not early ERP time windows for pupils with typical and poor reading skills

Dr. Josua Zimmermann (Department of Psychiatry, Psychotherapy and Psychosomatics, PUK)
White matter alterations in chronic MDMA use: Evidence from diffusion tensor imaging and neurofilament light chain blood levels

17:50-18:00 Short break

18:00-18:45 Keynote lecture
Chair: Prof. Dr. Boris Quednow

Prof. Dr. Nikolai Axmacher (Department of Neuropsychology, Ruhr University Bochum)
Memory Traces for Stressful and Traumatic Events

18:45-19:00 Awarding of the poster prizes
Chair: Prof. Dr. Boris B. Quednow and Prof. Dr. Reto Huber

19:00 Apéros riche (Z0 03)
